

UX STUDY PARTICIPATION FORM

WELCOME! Thank you for volunteering to participate in Microsoft Corporation UX Study for the purpose of observing the workflow of Machine Learning Developers and Data Engineers in the Exploratory Data Analysis (EDA) phase. By signing below, you agree that your participation in the UX Study is subject to the following obligations. Please read them carefully.

Microsoft values your opinion. Your feedback will help us improve features and functionality of our products and services and help shape the future of our technology.

CONFIDENTIALITY: The UX Study is confidential – even if the technology you are evaluating is commercially available, including information about Microsoft’s products and services, its business operations and strategies. You agree you will not disclose to others (including your family and friends) anything you learn from being in the UX Study without Microsoft’s permission. No blogging, posting on social media, no photos, and no discussions with media or press are permitted.

RECORDING AND FEEDBACK: Microsoft may decide to record or video tape your activities during the UX Study. This helps us better understand how you engage with the technology and the responses that you give or the actions you take. You agree to permit this recording and grant us the right to include your name, voice, image, biographical information and data in the recording. You acknowledge that Microsoft owns the recording and consent to Microsoft’s use of this recording for research and other business purposes. By providing feedback and suggestions you agree that Microsoft is free to use your feedback and suggestions for any and all purposes without obligation of any kind. You agree that your feedback is not confidential but Microsoft agrees not to identify you as the source of your feedback.

YOUR PARTICIPATION IS VOLUNTARY: Your participation in the UX Study is entirely voluntary – you can elect to not participate and you can change your mind at any time and elect to withdraw. However, the terms of this Participation Form shall remain in effect notwithstanding such withdrawal.

DATA: For the UX Study we may ask you to bring a sample of data to explore the Microsoft technology. You represent that you have the rights to use that data in the UX Study. You agree to mask or otherwise ensure that the data doesn’t include confidential information or personal information of yourself or others – such as credit card numbers, social security numbers, email aliases, etc.

RELEASE: You agree to release Microsoft, its officers, agents and employees from any cause of action, claim or demand that you may have relating to your participation in the UX Study, including for any and all injuries you may suffer or sustain, regardless of cause or fault. You warrant that you are at least eighteen (18) years of age and that you have the full, complete and unrestricted right and authority to enter into this release. You understand that Microsoft will proceed in reliance hereon. You further acknowledge and agree that you shall have no right to terminate or rescind this release or any of the rights granted hereunder.
